FLOOR GRINDING MACHINE

BS-310 AMIGA **PRO**

NEW:
With brushless electric motor
Works up to the edge

Mod. Dep.:
EU, CH, USA

Benefits:

- Unique design and easy to operate thanks to low weight of 35kg
- BRUSHLESS electric motor, very powerful, overload protection, virtually maintenance free
- Easy tool change on the jobsite
- Suction pipe for powerful vacuum cleaner, creating a safe environment
- The efficient suction of grinding dust and particles is a result of the unique design of the dust hood with 2 openings.

Technical data

Motor	2.6 kW
Voltage	230V / 50Hz / 16A
Tool plate rotation	2'250 RPM
Working width	310mm
Gewicht	35kg
Absaugschlauch ø	50/54mm

Ready for preparation with the BS-310 AMIGA

PRO

The benefits

Features

1. Handle assembly is equipped with hand levers, height adjustment and security button ON-OFF.
2. Suction pipe for industrial vacuum cleaner.
3. Special dust hood with 2 tube openings to ensure fast suction of dust and particles.
4. Ergonomic 8-cornered body, with air slots for the electric motor, water-level for flatness control.
5. Solid protective rubber band to retain dust production.
6. Opening for edge grinding along vertical surfaces and walls. Easy stand-up work.
7. Working angle adjustment. Rubber wheels for a smooth roll over rough surfaces. Protection against overloading.

SUPER POWERFUL - ALL METAL CONSTRUCTION
