

# RM-320 HEAVY DUTY SELF-PROPELLED POWER PLANER

„Roto-Tiger“  
*The Original!*

- Grinding, Milling, Planing and Levelling concrete and asphalt
- Removing traffic lines and thermoplastics
- Scabbling concrete surfaces
- Forming keyways in asphalt
- Safety grooving
- Cleaning and Removing rubber, oil, coatings and surface contaminants

**Successful Grinding and Milling  
with 5 Shaft-Drum**

**Experience the  
difference!**

**Designed for  
larger areas!**

Operating width:	320 mm (13")
Dimensions:	1400 x 580 x 1000 mm
Power electric:	400 V, 11 KW, 50 Hz, 22 A 400 V, 15 KW, 50 Hz, 29 A (option)
Weight:	330 Kg (11 KW) 335 Kg (15 KW)
<b>HONDA POWER</b>	<b>Gas, 20 HP, 340 kg</b>
Option:	HATZ Diesel, 7 KW (on request)

- » Integral dust control outlet
- » Self-propelled Hydrostatic Power forward and reverse Drive
- » Heavy duty welded steel construction
- » Full range of cutters
- » Fully adjustable depth control up to 8 mm, according to hardness of concrete, in one pass
- » AIRTEC-VISTA-FLOOR Surface Preparation

# RM-320

# A must for Quality Surface Preparation!

## Unique Benefits

**1. Switch Box**  
is fitted with ON-OFF Button emergency Stop, control supply voltage

**2. Speed Control**  
Hydrostatic power, forward and reverse, variable drive speed 0-4.5 m/Min.

**3. Drum-Control**  
Single lever for drum engage quick lift

**4. Cutting Depth**  
Micro-Depth control for fine tuning depth of rotating cutter drum

**Differential**  
Unique Wheel Transmission and drive for ON SPOT U-Turns

**Drive Unit**  
Hydrostatic drive unit completely sealed

**Safety**  
Full safety operating systems, security switch

**Dust control**  
Built-in vacuum connection for almost dust-free operation (64/70 mm Ø)

## The Tools

Quick changing of drums and cutters

High Quality tool drum, special steel, heattreated, gives extra long working life, (2 x 5 openings for cutter shafts)

## High Performance Cutters for Concrete + Asphalt

### with Tungsten Points

**HMT-8.200-PIC**  
Scarifying, milling, grooving, cleaning, rough application, removes hard deposits

**HMT-12.200**  
Grinding, planing, cleaning, removing rubber, oil, coatings, grease. 12 Tungsten Points, less rough action

### with Tungsten Blades

**TMO-6.22**  
Removing and stripping paint, based on thermoplastics

### Full Tungsten

**TMO-12.200**  
Special Peeling Cutter for removing thermoplastics, cold plastics, thick coatings

### Steel Heattreated

**STR-5**  
General cleaning, removing adhesives, paint, traffic lines, fine finish

**ET-5**  
De-rusting, de-scaling, general cleaning

## The Applications
